

## **Respect everyone**

We are all here to play Minecraft and have fun. These rules are created as a guideline not an example of how to get as close to being an asshole as possible. Don't be mean or intentionally troll other players. All players, regardless of rank, deserve to be heard and respected. Therefore, don't spam, excessively curse, or advertise anything outside of our server. Also Racism, sexism, homophobia, or hate towards any group or person is not allowed.

## **Listen to staff**

If you have any questions or issues, staff can be found on our Discord. Our staff team works together on decisions and always makes sure there are 3 separate offenses. Playing on our server means you agree to follow these rules and accept punishment if broken. We do not share "proof" of things like x-ray, we will not educate the cheaters on how not to be caught. If you don't trust our judgement, you're free to find another server to play on.

## **Respect people's boundaries**

People are allowed to decide whether or not they want to play with you. I know it's frustrating when you want to play with someone, and they don't want to play with you. It hurts when you are rejected, I understand that. But that doesn't mean you should make them feel guilty to play with you anyway. If someone copy pasted this to you, know that they don't hate you, they just want you to realize that they are setting boundaries and the only respectable way to react is to respect those boundaries.

## **No hacking or cheating**

You are responsible for what happens on your account. X-ray, flying, using glitches (including but not limited to any form of duping), exploits, macros and any kind of hacking is not allowed. **If it looks like you are cheating its treated like you are cheating!** (For example, using the math thing to dig straight down to diamonds looks like xray so is not allowed!) Having more than 2 accounts is not allowed. Any form of auto clicking is not allowed. If you cheat in any way, you will most likely be banned for Life!

## **No anti-afk**

You are kicked from the server after being AFK for 1 hour. Using macros or anything else to get around the anti-AFK is not allowed.

## **Claim your builds**

If you want to Protect your Property or Area, send a Message in the Support Channel on discord with the X and Z coordinates of your Property, you need to submit the coordinates Diagonal over your Property.

## **No griefing**

Griefing is breaking or placing blocks in a way to ruin the server environment. This includes but is not limited to, placing or breaking random blocks in the wilderness or other players builds, placing water or lava, intentionally using exploits to harass players. Breaking transportation (pathways, railways, etc) is not allowed. Useless extreme Redstone Clocks, or Farms that can harm the Server Performance is not

allowed. If you are not sure Contact a Staff Member in the Support Channel on Discord and we'll assess your Build.

### **Keep spawn presentable**

Please keep the view around spawn presentable. Spawn is the first thing new players see so keep that in mind when you build close enough that it's visible from spawn.

### **Don't murder**

Killing players without consent is not allowed. Preventing players from getting back their items from their death chest is not allowed.

### **Don't break the server**

Create Redstone builds to be efficient. Animal farms are allowed, but if they cause lag you will be asked to downsize. Spread out automated farms. If you are unsure if something is going to harm the server, ask staff. Failure to comply with staff directions continuously is bannable.

### **Do not abuse the rules to joke around**

Do not pretend your friend did something to get them punished

The rules are here to keep this server fun for everyone to play on together. We all come here for the community. Keep the community in mind when you play on our server and you will see a lot is possible here. Remember that we are all here to have fun, even the staff. The admins have alt accounts to play normally, if you know who we are please respect that we use those accounts to step away from being admins and just relax. You can always contact us on Discord and we will get back to you asap. All Interactions, Chat, Commands and Inventory Changes are Logged on the Server!!
